CONVERSION KIT FOR ITALERI No. 740 AND REVELL No. 07527

CTM PHOTOETCHED AND RESIN PARTS

CONVERSION KITS  
FOR  
ITALERI No. 740,  
REVELL 07527

CTM 007 PETERBILT 377 A/E

- DETACH WITH KNIFE

- BEND

- REPLACE

- OPTIONAL

- NUMBER OF WORKING STEPS

- MAKE A HOLE

- GRIND

*This set is not a children's toy and was designed for professional modellers only who already have some skills in working with photoetched parts. Special tools for bending of photoetched parts is recommended when working with this set. Non using this tool during bending may cause destruction of the part. Careful bending of the most of the parts could be also using a metal ruler, a sharp knife and a tweezer on a hard surface. Pay attention, be careful and keep your safety and health in mind during work!*

*For gluing and filling a cyanoacrylate glue and a glue removing liquid is recommended. Whe (or even before) working with each part inspection of the real part on the vehicle or a picture of the real thing is recommended and helpful.*

*Ussing some of the etched parts may be conditional on kit plastic parts modification.*

### 24047

Carefully bend the part No.1 around a pipe of an equivalent diameter and form the exhaust heatshield into a closed pipe and glue the edges together. The exhaust silencer diameters should be around 9,5 - 10 mm. Both the parts No. 8 & 5 should be glued together to form lower heatshield mouting with a hole for an exhaust. The upper mount consist of parts No. 8 & 7 and issup parting the 5 mm diameter outlet pipe. Fit the part No. 11 fitted with part No. 10 into the upper and lower cab exhaust mounts. This waz the parts No. 5 & 10 are connected. The outlet pipe can be fitted with rain cap (parts 2,6 and 9).

Remove the original fuel tank straps and replace them with part No. 9 to form a "T" shape which supports the fuel tank straps. Glue the part No. 16 over the tank filling hole (bend the part gently) and insert the part No.14 and filling cap No.15. part No.4 is a replacement for Italeri kit part No.188 where the handle No. 10 and 11 and grab handle with lock (parts No.2 & 3) should be fitted. The upper part of the battery box cover should be fitted with the step part No.5 (Italeri part No. 190). The rear part of the LHS fuel tank side skirts houses the steps No.13 (Italeri kit part No. 189). The rear mudflaps should be fitted with the red oval logo from the kit.

- 1/ diesel tank mounting straps
- 2/ grab handle (for handle No.10)
- 3/ handle lock (for handle No.10)
- 4/ battery box cover (replacement for kit part No.54)
- 5/ battery box step (upper)
- 6/ front mudflap
