Norton 750 Commando PR

EN

In 1967, in order to relaunch the sales on a rapidly changed two wheelers market, the Norton Motorcycle Company introduced its new motorcycle : the Norton Commando. The Commando adopted a parallel twin-cylinder 750cc engine with two valves per cylinder. Compared to the previous British engines it was characterized by the higher displacement and the tilted forward cylinders. The use of the Isolastic anti-vibration system provided and impressive increase of the riding comfort. The Norton Commando, replaced the outdated Atlas, and obtained immediately a very good commercial success. It became very popular and well-known all over the World. In the United Kingdom it won the Motor Cycle News "Machine of the Year" award for five successive years from 1968 to 1972. Particularly appreciated the modern and innovative shape, for those time, as the design of fuel tank, handlebar and back cover.

IT

Nel 1967, per rilanciare le vendite in un mercato che stava velocemente cambiando, la Norton Motorcycle introdusse sul mercato la sua nuova moto : la Norton Commando. Il motore della Commando era un 750 cc. bicilindrico parallelo con due valvole per cilindro e distribuzione ad aste e bilancieri. Rispetto a precedenti motorizzazioni con cilindrate inferiori il motore si caratterizzava per avere i cilindri inclinati in avanti. L'adozione del sistema Isolastic riduceva inoltre le vibrazioni ed aumentava il comfort di guida. La Commando sostituì la Norton Atlas, le cui vendite avevano rallentato, ed ottenne un buon successo commerciale in tutto il Mondo divenendo rapidamente molto popolare. Nel Regno Unito vinse, per cinque anni consecutivi, dal 1968 al 1972, il premio di Motor Cycle News "Machine of the Year". Particolarmente apprezzato il design, moderno per l'epoca, del serbatoio, del codino e del manubrio.

DE

Um die Verkäufe eines rasant wechselnden Marktes wieder anzukurbeln, führte die Firma Norton Motorcycle 1967 ihr neues Motorrad ein: die Norton Commando. Der Motor der Commando war ein Zweizylinder-Reihenmotor mit 750 Kubikzentimeter und zwei hängenden Ventilen pro Zylinder, die über Stoßstangen und Kipphobel betätigt wurden. Im Vergleich zu den vorherigen Motorisierungen mit einem geringeren Hubraum zeichnete sich der Motor durch die nach vorne geneigten Zylinder aus. Der Einsatz des Isolastic-Systems verringerte außerdem die Vibrationen und erhöhte den Fahrkomfort. Die Commando löste die Norton Atlas ab, deren Verkäufer zurückgegangen waren, und erzielte weltweit einen guten Geschäftserfolg, indem sie sich schnell großer Beliebtheit erfreute. Im vereinigten Königreich gewann sie fünf Mal hintereinander, von 1968 bis 1972, den Preis des Magazins Motor Cycle News „Machine of the Year“. Besonders gelobt wurde das für die damalige Zeit moderne Design des Tanks, des Hecks und der Lenkstange.

EN WARNING: Model for adult collector age 14 and over

IT ATTENZIONE: Modello per collezionisti adulti di età superiore ai 14 anni

FR ATTENTION: Modèle pour collectionnistes de 14 ans et plus.

DE ACHTUNG: Modellbausatz für Modellbauer über 14 Jahre.

NL WAARSCHUWING: Geschikt voor 14 jaar en ouder.

ES ATENCIÓN: Modelo para modelistas mayores de 14 años.

FR ATTENTION - Conseils utiles!

Avant de commencer le montage, étudier attentivement le dessin. Détacher avec beaucoup de soin les morceaux des moules en utilisant un mousquet ou bien un païol de fer et couper avec une petite lame avec de papier de verre fin ébarbages éventuels. Jamais détacher les morceaux avec les mains! Monter les en suivant l'ordre de la numérotation des tables. Éliminer de la moule le numéro de la pièce qui vient d'être montée, en la biffant avec une croix. Les flèches noires indiquent les pièces à coller, les flèches blanches indiquent les pièces à monter sans colle. Employer seulement de la colle pour polystyrène. Les lettres (A - B - C...) aux cotés des numéros indiquent la moule où se trouve la pièce à monter. Les pièces marquées par une croix ne sont pas à utiliser.

ES ATENCION - Consejos útiles!

Estudiar las instrucciones cuidadosamente antes de comenzar el montaje. Separar las piezas de las bandejas con un cuchillo afilado o con una paleta de plástico y retirar el exceso de plástico o de poliestireno. No arrancar las piezas. Montar las piezas en orden numérico. Utilizar SOLAMENTE pegamento para plástico y en poca cantidad para evitar que se dane el modelo. Las flechas negras indican las piezas que se deben pegar juntas. Las flechas blancas indican las piezas que deben ensamblarse SIN usar pegamento. Las letras (A - B - C...) indican en qué bandeja se encuentran las piezas. Pintar las piezas pequeñas antes de separarlas de la bandeja. Retirar la pintura de los lugares por donde se deben pegar las piezas.

RU предупреждение - чрезвычайные!

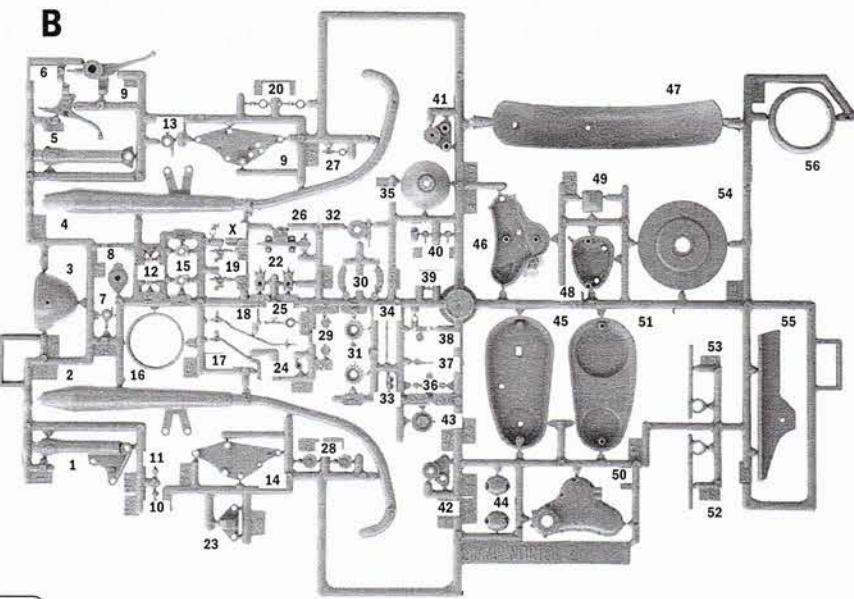

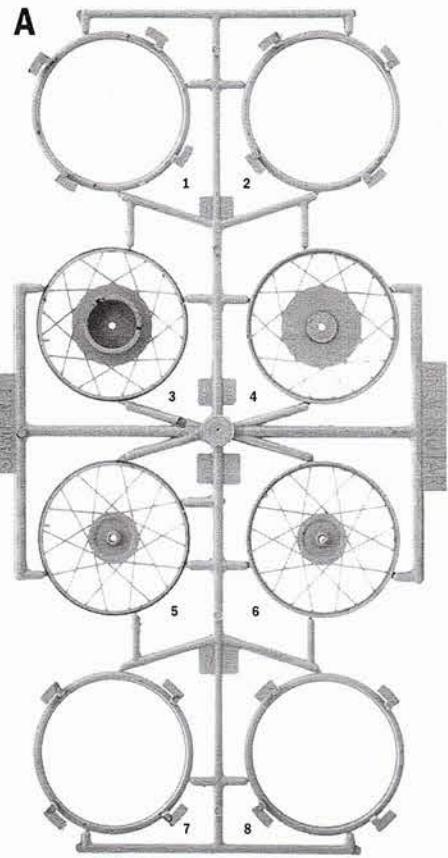

Перед тем, как приступить к сборке, внимательно изучите чертеж. Осторожно отсоединять распечатанные элементы. Использовать для этого канцелярский нож или пару ножниц снять неровности с помощью тонкого лезвия или с помощью аэрозольной баллончики. Не отсоединять элементы руками. Выпинять скруты скобами переднюю пластины, чтобы удалить из стекла только что соединенную деталь, перечеркнув ее. Чёрные стрелки указывают детали для склейки, белые стрелки указывают детали, которые склеиваются без клея. Использовать только клей для пенопласта, белый (A - B - C...) на пронумерованной стороне указывают лист, где находятся детали. Перевернутые детали не использовать.

IT ATTENZIONE - Consigli utili!

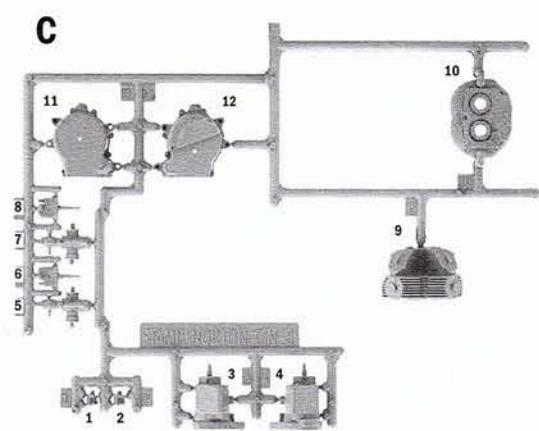

Prima di iniziare il montaggio studiare attentamente il disegno. Staccare con molta cura i pezzi dalle stampate, usando un taglia-balsamo oppure un paio di forbici e togliere con una piccola lima o con carta vetro fine eventuali sbavature. Mai staccare i pezzi con le mani. Montare seguendo l'ordine delle numerazione delle tabelle. Eliminare dalla stampata il numero del pezzo appena montato facendogli sopra una croce. Le frecce nere indicano i pezzi da incollare, le frecce bianche indicano i pezzi da montare senza colla. Usare solo colla per polistirolo. Le lettere (A - B - C...) al lati dei numeri indicano la stampata ove si trova il pezzo da montare. I pezzi sbarrati da una croce non sono da utilizzare.

DE ACHTUNG - Ein nützlicher Rat!

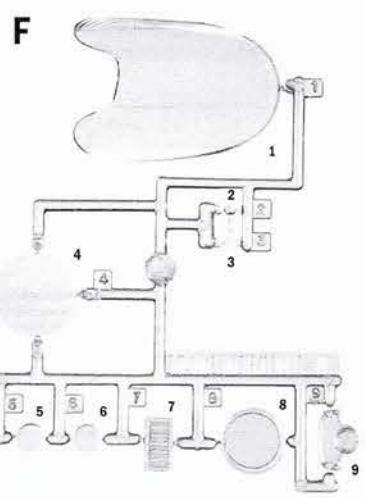

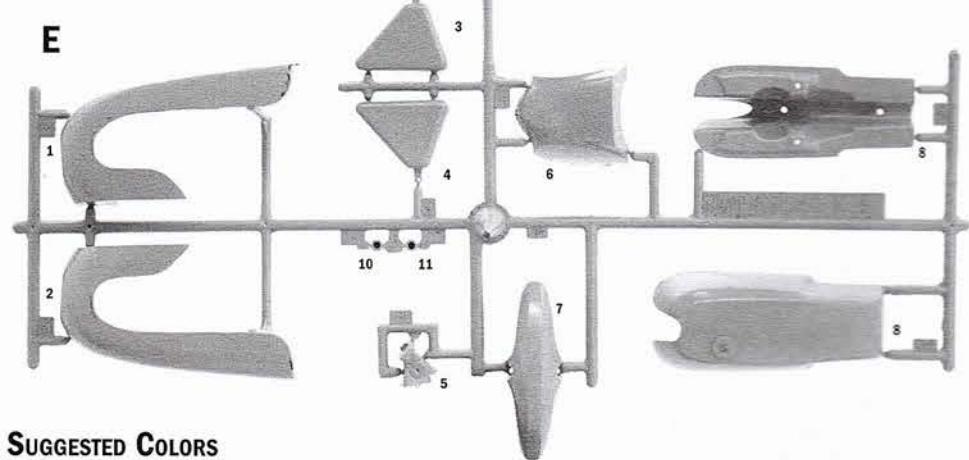

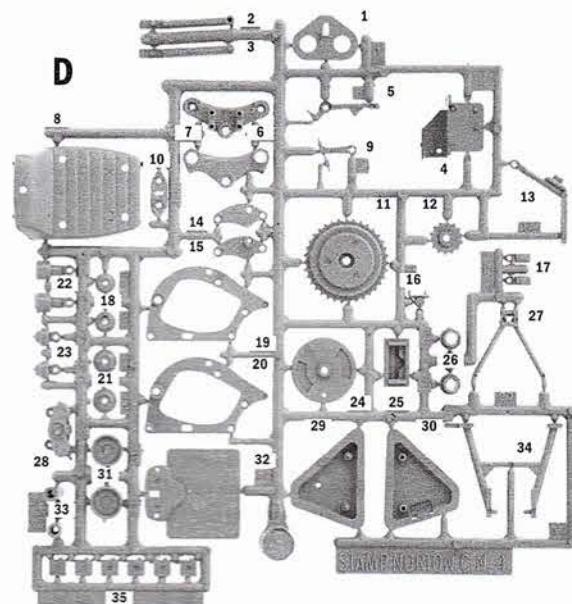

Vor der Montage die Zeichnung aufmerksam studieren. Die einzelnen Montageteile mit einem Messer oder einer Schere vom Spritzguss entfernen. Eventuelle Grate werden mit einer Klinge oder feinem Schmiegelpapier beseitigt. Keinesfalls die Montageteile mit den Händen entfernen. Bei der Montage der Tafelnummierung folgen. Pfeile zeigen die zu klebenden Teile während die weißen Pfeile die ohne Leim zu montierenden Teile anzeigen. Bitte nur Plastikklebstoff verwenden. Die Buchstaben (A - B - C...) neben den Nummern zeigen auf welchem Spritzguss der zu montierende Teil zu finden ist. Die mit einem Kreuz markierten Teile sind nicht zu verwenden.

Istruzioni per l'applicazione delle decalcomanie. Ritagliare le decalcomanie occorrenti dal foglio, immergerle in un bicchiere di acqua pulita per circa 20°, metterle in posizione sul modello e farle scivolare dalla carta: per una migliore aderenza comprimerle con una pezzuola pulita.

Direction for applying the decals: cut the required decals out of the sheet; dip them into a glass of clean water for about 20°; position the decals on the kit, letting them slide from the paper. For a better adhesion, press them by means of a clean rag.

Påsättning av dekaler: klipp ut den decal som skall användas och doppa den i ett glas vatten under en 20°. Sätt dekalen på plats på modellen och låt den sakta glida av pappret. För att den skall sitta ordentligt, tryck till med en torr duk.

Anweisungen für Abziehbilder-Anbringung: Die benötigten Abziehbilder vom Blatt abschneiden, in ein Glas reines Wasser für etwa 20° eintauchen, auf das Modell legen und dann vom Papierbogen abnehmen. Um eine bessere Haftung zu erzielen, die Abziehbilder mit einem reinen Tuch andrücken.

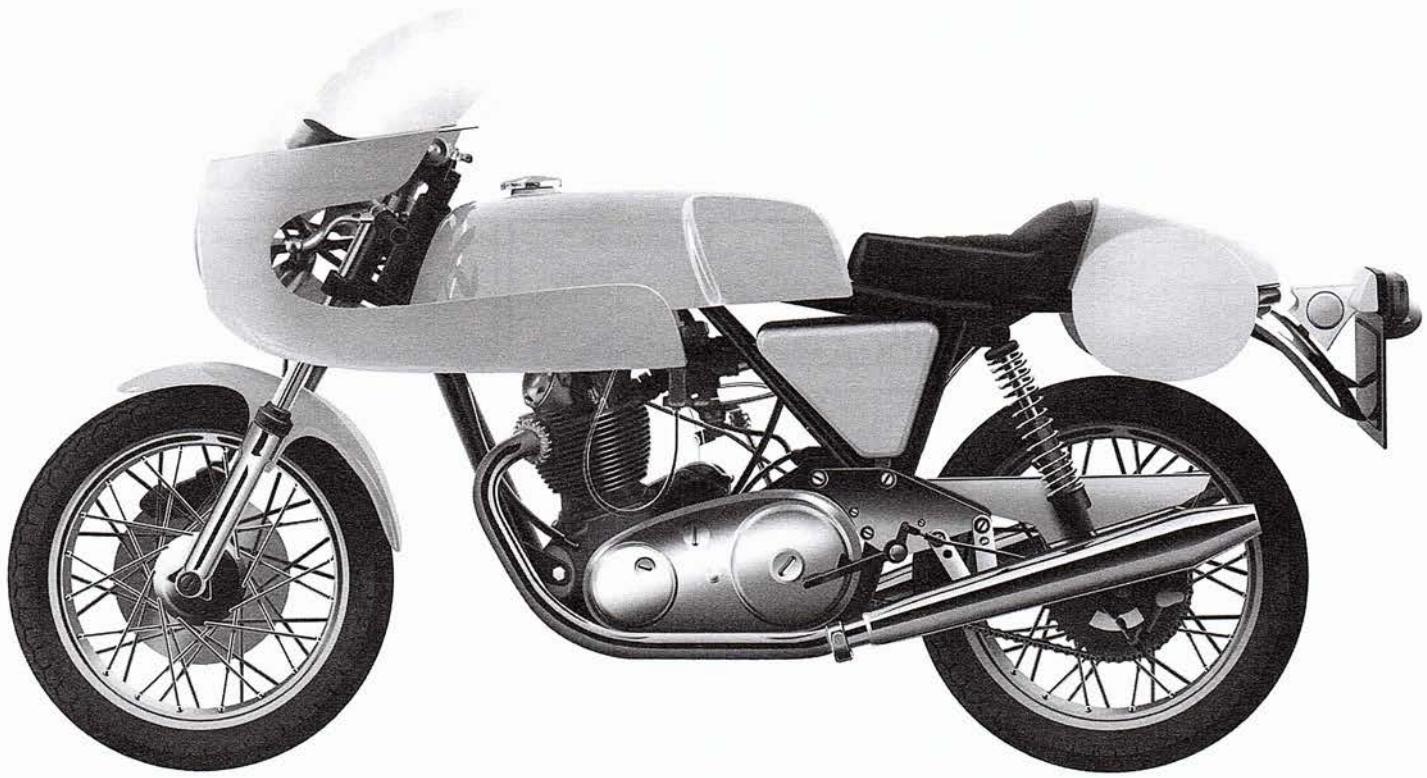

Instructions pour l'application des décalcomanies. Couper les décalcomanies choisies, les plonger environ 20° dans un peu d'eau propre. Les placer sur le modèle en les faisant glisser de leur feuille et presser avec un morceau de chiffon pour éliminer les bulles d'air.

Instrucciones Para la aplicación de las calcomanías: cortar las requeridas, sumergirlas en un recipiente de agua limpia durante 20°, colocar las calcomanías sobre el modelo, haciéndolas deslizar sobre el papel. Para una mejor adherencia, presionarlas con un trapo limpio.

Transfers: knip het benodigde deel uit, dempeil en ca. 20° onder water, oudt het transfer tegen het model en schuif het vanaf het papier op zijn plaats. Met een schoon doekje aandrukken.

デカール使用法：各貼り方。それそれのマークを切り取ります。ぬるま湯に20秒くらいかけて、引き上げます。マークをすべらすようにして貼りかたとし、指定の位置にはってください。やわらかな布でマーク上を押して気泡を取ってください。マーク面には、かわくまで手をいれないでください。

Указания по применению декалей: отрежьте нужную вам часть декалей от общего листа, поместите ее на 20° минуты в чистую воду, затем, выбрав необходимое место на модели, переведите туда изображение, сдавив его с буяжной основы. Для лучшего прилипания промокните декаль чистой тряпочкой.
