EN

The sporty version of the Lancia Delta road model - the "HF" 4WD - is an icon of rally cars. The Delta HF was produced in the second half of the 1980s and took part in the World Rally Championship from 1987 to 1988, won two world championship titles and took first place in numerous races such as the prestigious Monte Carlo Rally and that of San Remo. Its development, the Lancia Delta Integrale, took part in races until 1993, won another 5 world championship titles and consolidated the "Palmares" in the Italian company's off-road competitions. In many aesthetic details that made it more muscular, such as the enlarged fenders and new air inlets on the bonnet, the technology and engine of the HF Integrale have also been improved. The performance of the 1995 cc turbo engine, for example, has been increased to 185 hp. The Lancia Delta Integrale dominated the World Rally Championship between the 80s and the early 90s and brought many famous drivers such as Miki Biasion, Didier Auriol or Juha Kankkunen to victory.

EN ATTENTION - Useful advice!

Study the instructions carefully prior to assembly. Remove parts from frame with a sharp knife or a pair of scissors and trim away excess plastic. Do not pull off parts. Assemble the parts in numerical sequence. Use plastic cement ONLY and use cement sparingly to avoid damaging the model. Black arrows indicate parts to be glued together. White arrows indicate on which frame the parts must be assembled WITHOUT using cement. These letters (A - B - C...) indicate on which frame the parts will be found. Paint small parts before detaching them from frame. Remove paint where parts are to be cemented. Crossed out parts must not be used.

IT ATTENZIONE - Consigli utili!

Prima di iniziare il montaggio studiare attentamente il disegno. Staccare con molta cura i pezzi dalle stampate, usando un taglia-balsa oppure un paio di forbici e togliere con una piccola lima o con carta vetrata eventuali bavature. Mai staccare i pezzi con le mani. Montarli seguendo l'ordine delle numerazioni delle tavole. Eliminare dalla stampata il numero del pezzo appena montato facendogli sopra una croce. Le frecce nere indicano i pezzi da incollare, le frecce bianche indicano i pezzi da montare senza colla. Usare solo colla per polistirolo. Le lettere (A - B - C...) ai lati dei numeri indicano la stampata ove si trova il pezzo da montare. I pezzi sovrastriati da una croce non sono da utilizzare.

DE ACHTUNG - Ein nützlicher Rat!

Vor der Montage die Zeichnung aufmerksam studieren. Die einzelnen Montageteile mit einem Messer oder einer Schere vom Spritzling sorgfältig entfernen. Eventuelle Grate werden mit einer Klinge oder feinem Schmirgelpapier beseitigt. Keinesfalls die Montageteile mit den Händen entfernen. Bei der Montage der Teilenummern folgen. Pfeile zeigen die zu klebenden Teile während die weissen Pfeile die ohne Leim zu montierenden Teile anzeigen. Bitte nur Plastikklebstoff verwenden. Die Buchstaben (A - B - C...) neben den Nummern zeigen auf welchem Spritzling der zu montierende Teil zu finden ist. Die mit einem Kreuz markierten Teile sind nicht zu verwenden.

FR ATTENTION - Conseils utiles!

Avant de commencer le montage, étudier attentivement le dessin. Détacher avec beaucoup de soin les morceaux des moules en utilisant un rasoir ou bien un pair de ciseaux et couper avec une petite lame avec de papier de verre fin ébarbages éventuels. Jamais détacher les morceaux avec les mains. Monter les en suivant l'ordre de la numérotation des tables. Éliminer de la moule le numéro de la pièce qui vient d'être montée, en le biffant avec une croix. Les flèches noires indiquent les pièces à coller, les flèches blanches indiquent les pièces à monter sans colle. Employer seulement de la colle pour polystyrol. Les lettres (A - B - C...) aux côtés des numéros indiquent la moule où se trouve la pièces à monter. Les pièces marquées par une croix ne sont pas à utiliser.

ES ATENCION - Consejos utiles!

Estudiar las instrucciones cuidadosamente antes de comenzar el montaje. Separar las piezas de las bandejas con un cuchillo afilado o un par de tijeras y retirar el exceso de plástico o rebaba. No arrancar las piezas. Montar las piezas en orden numérico. Utilizar SOLAMENTE pegamento para plástico y en poca cantidad para evitar que se dañe el modelo. Las flechas negras indican las piezas que se deben pegar juntas. Las flechas blancas indican las piezas que deben ensamblarse SIN usar pegamento. Las letras (A - B - C...) indican en que bandeja se encuentran las piezas. Pintar las piezas pequeñas antes de separarlas de la bandeja. Retirar la pintura de los lugares por donde se deben pegar las piezas.

RU ПРЕДУПРЕЖДЕНИЕ - полезные!

Перед тем как приступить к сборке, внимательно изучить чертеж, очень осторожно отсоединять отдельные элементы, используя для этого канцелярский нож или пару ножниц, срезать неровности с помощью тонкого лезвия или с помощью абразивной бумаги, не отсоединять элементы руками. Выполнять сборку согласно порядку нумерации таблиц, удалять из списка только что собранные детали, перечёркивая их. Чёрные стрелки указывают детали для склеивания, белые стрелки указывают детали, которые собираются без клея. Использовать только клей для полистирола. Буквы (А - В - С...) на пронумерованных сторонах указывают, где находится деталь. Перечёркнутые детали не используются.
