For kit NuNu PN24009
 With Detail-up parts DCL-PAR035 from Decalca

- Necessary to use the detail-up set Decalca DCL-PAR035 for front bumper, rear wing and co-pilot instruments;
- Better place decal 15 before mounting part H1 of the kit;
- Use all the interior decals from the kit, except for seats, where you must use decals 47 and 48 from Printlab sheet;
- Use the black decals 79 to 98 from the kit;
- Use either the blue and red decals from Printlab or from the kit;
- The decal 52 from Printlab sheet it's optional (see fotos);
- Make two new antennas, as seen on photos;
- Advisable to use the detail-up NE24009 from NuNu;
- Decals 49 are used with de NuNu transkit, on the seat belts.
